DETAILED ACTION

Response to Amendment

This Office Action is in response to the amendment filed on May 19, 2006.

Accordingly, claims 2-4 and 6-8 were canceled, claims 1, 5 and 21 were amended.

Currently, claims 1, 5, 9-11 and 17-24 remain pending.

Allowable Subject Matter

Claims 1, 5, 9-11 and 17-24 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record, taken alone or in combination, fairly shows or suggests all the limitations as claimed.

Re claim 1, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claim: forming an electrically insulative material on opposite sides of said lead frame prior to connecting said components, thereby defining a package form, said package form being patterned to include a locking mechanism, said bending of said lead frame including utilizing said locking mechanism to fix said lead frame in a position to establish said angle.

Re claim 17, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claim: bending said lead frame in a region between said first and second areas to establish a condition in which light from said light source illuminates a field of view of said sensor die.

Re claim 21, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claim: engaging said locking mechanism to

secure said first portion to said second portion after said sensor die and light source are fixed to said first and second areas, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
